

Join the decommissioning sector's only independent member organisation and connect with 370+ member companies drawn from operators, major contractors, service specialists and technology developers.

ABOUT DECOM NORTH SEA

Established in 2010, Decom North Sea is the single topic, multi region membership organisation which **connects capability with opportunity** across the oil and gas decommissioning sector.

As a not-for-profit organisation, Decom North Sea is working to enhance knowledge transfer and facilitate collaborative activities to deliver "innovative models" that minimise decommissioning costs, optimising value for operators, national treasuries and other stakeholders. It also works to maximise business potential for its member companies.

With decommissioning spend along being forecast at an estimated £17 billion from 2017 – 2025 (Oil & Gas UK Decommissioning Insight Report 2017), Decom North Sea play a vital role in solution development, cross sector learning and helping to build supply-chain capability.

Decom North Sea works closely with a number of strategic partners to achieve these objectives.
